

## Classic Romance

This is a diverting delight, a window on romance in literature. There are high lovers and low lovers, tragic lovers, comic lovers, and lovers who shouldn't be doing what they are doing at all and certainly not then and there. There is even Fanny Hill trying not to discover what physical love is about when set upon by an old roue who has paid for the privilege. Though of special interest for lovers and their special lovers day of St. Valentine, it is an amusing and sometimes surprising collection.
