

## The First Snow: Prologues #5

Stella Stone has followed her husband to the ends of the Earth as he has developed his Air Force career. After living in beautiful locales in Hawaii, Germany and Japan, she is shocked by his most recent set of orders: isolated and freezing Minot, North Dakota. She finds herself constantly alone with her two small children as her husband spends days at a time sitting in a nuclear missile silo. As she settles her young family in the new quarters, she begins to grow suspicious of General Peagram, her husband's commanding officer, and the mission of which her husband is a part.
