

A Book Called in Latin Enchiridion Militis Christiani, and in English the Manual of the Christian Knight (Classic Reprint)

But again there is another thing which oftentimes grieveth me in my mind, that a certain well learned friend of mine long ago said, very properly and sharply checking me, that there was more holiness seen in the little book than in the whole author and maker thereof. Indeed he spake these words in his jesting bourdyngly, but would to God he had not spoken so truly as he bourded bitterly. And that grieveth me so much the more because the same thing hath chanced to come likewise to pass in him, for the changing of whose manners principally I took upon me this labour and travail, for he also not only hath not withdrawn himself from the court, but is daily much deeper drowned therein than he was aforetime, for what good purpose I cannot tell, but as he confesseth himself with much great Trouble or misery. And yet for all that I do not greatly correteth pity my friend, because that peradventure adversity of fortune may teach him once to repent himself, and to amend, seeing that he would not follow and do after my counsel and admonitions.
