

Offline: In The Flesh

The Internet has brought us all closer to together. Strangers are just a click away. But despite all the risks, sometimes love can blossom amid the chaos. This style adds bits and pieces of wonderful ah ha moments to the reader slowly, and that really adds to the tension of wanting to find out what is going to happen as a result of this online relationship. The easy chatting style is all too familiar... and the creep factor may be too, but hopefully not. I felt like a voyeur going through someones chat history at times, and I enjoyed every
