

Code Breakers: Beta

Being human is no longer enough. The fanatical Red Widows sweep destruction across the abandoned lands. Their aggression threatens to destroy the city Gerry had risked his life to save. Petal, the woman Gerry has come to love is dying. The despotic cabal, The Family, demand he brings her to them, but she's missing, running from the Widows, searching for the truth of her origins before it's too late. When their paths cross, Petal and Gerry will hold the fate of humankind in their hands if they can survive the malevolent digital entity that stalks them from the shadows. Code Breakers: Beta is a post-apocalyptic, near-future thriller that will delight fans of The Matrix, Neuromancer, and Blade Runner.
