

Elementary (All-New Tales of the Elemental Masters)

In March 1987, Mercedes Lackey, a young author from Oklahoma, published her first novel, *Arrows of the Queen*. No one could have envisioned that this modest book would be the beginning of a fantasy career that would span decades and more than a hundred novels, with no signs of slowing yet. And among Ms. Lackey's many novels, few are as critically-acclaimed and beloved as those of the *Elemental Masters*. The novels in this series are loosely based on classic fairy tales, and take place in a fantasy version of turn-of-the-century London, where magic is real and *Elemental Masters* control the powers of Fire, Water, Air and Earth. Now the voices of other authors join Mercedes Lackey to add their own special touches to this delightful alternate history, in a world where magic is always just around the corner...
