

Lorilee: The Divided Worlds, Books 1 - 2

TWO COMPLETE BOOKS. TWO COMPLEMENTARY TALES.. 149,000 Words of Epic Adventure In Moira's Footsteps After thirteen years of being shuffled between foster homes, Lorilee ONoon meets a foster family that she finally begins to think of as her own. Still, Lorilee wonders why she has two hearts, a near-miraculous ability to heal, exceptional physical strength, and was abandoned at a child services agency as an infant. As Lorilee settles into a normal and happy existence for the first time in her life, no answers to these questions are forthcoming until an older man claiming to be her grandfather shows up with news that threatens to destroy her newfound normalcy and change her life forever.

Flight to Zorzen Vacationing at her grandfathers lakeside cabin in Wisconsin, Lorilee attempts to wind down from a summer filled with life-changing discoveries, non-stop adventures, and terrible danger. Her bucolic aspirations are soon thwarted, however, by an insanely jealous local gangster, the ill-advised operation of an interdimensional portal-generating device that brings a youthful member of the lethal Hijority race into their midst, and, finally, a commercial airliner flight back to her new home in California that is tragically diverted when a severe electrical storm activates the interdimensional device they are carrying with them, propelling half of the plane into the violent parallel world of Zorzen.
