

Reclamation: The Bridge Chronicles, Book 5

The peace of the virtual world Bottle City is broken by an incursion, a cry for help from the mythical hacker enclave 4nasia. These hackers are legend, dating back to the first appearance of cybernetic implants on American covert operatives in the Venezuelan War of 2018. Now their cry for help reaches Artemis Bridge, the fixer who knows a guy in the gritty Gangland of 2030 Los Angeles. Bridge has his own problems from Michael Freeman, the rogue hacker with a grudge, to the secret dealings of the wizards on the Technomancers Council of Five. Can Bridge pull off the high seas rescue of the 4nasia hackers while keeping the gangs of the Five Families from destroying their safe haven in the Gangland? Enlisting the aid of Triad gangster Fong, will Bridge be able to save the hackers and the Families before Freeman destroys it all? This pulse-pounding thriller is the fifth in the critically-acclaimed independent cyberpunk series The Bridge Chronicles by Gary A. Ballard.
