

Harvest Moon: A Moon Coven Series Novella (Volume 2)

Seventeen year old Lochlan Moon had been groomed his entire life to accept the torch that would eventually be handed to him and step into his destiny - to be the most powerful witch in almost five hundred years. He put his heart and soul into mastering a craft passed down through the generations of his ancestral bloodline. Between the savage murder of a family member, and vanishing classmates, doubts that had kept buried began to resurface. Someone or something is on a monstrous killing spree in his home town of Hampstead. Lochlan is determined to help stop whatever it is. All the while, his future within the familys circle teeters on a deadly precipice. Will any of the witches survive to harness the magick within after this Harvest Moon?
