

## If Looks Could Kill

Meet Bailey Weggins, the thirty-something, single-again true crime writer for a leading Manhattan women's magazine. Smart and savvy, she's got a sixth sense when it comes to seeing the truth in a story—especially if it's murder. Bailey is in bed with her commitment-challenged lover K.C. when she gets a frantic call from her high-maintenance boss at Gloss magazine. Grabbing coffee and a cab outside her Greenwich Village apartment—the consolation prize in her divorce settlement—Bailey reluctantly heads uptown. At Cat Jones's Upper East Side town house, she finds something that seriously clashes with the chic decor: the dead body of the family's line-in nanny. As Bailey unofficially delves into the murdered girls' past, she finds no shortage of A-list suspects. But when a startling discovery suggests that Cat may have been the intended victim, Bailey is suddenly up to her bed head in high-profile investigation that's perfect fodder for a tabloid headline: Is someone trying to kill the editors of women's magazines? With the spotlight on New York's glitzy media world, Bailey interviews backstabbing editors, straying husbands, and one sexy, six-foot-two psychologist who could make her decide to kick K.C. to the curb. Sporting her pair of red slingbacks and armed with the investigative skills she's honed as a true crime reporter, she sets out on a search that takes her from Manhattan's exclusive Carnegie-Hill area—the nanny heartland of America—to the ritzy weekend estates of Pennsylvania and Connecticut. Bailey will need all her street smarts and some lightning-fast detective work to catch a killer who could end up deleting her name from the masthead for good.
