

Shadow Tales - Second Edition

There is a realm that exists within our world--the domain of shadow. A world that mirrors our own, where darkness prevails and nothing is as it seems. Sometimes our worlds cross and it is then that we get our first glimpses into the shadows--such as when gooseflesh crawls up your arm or when the hair stands up on the back of your neck. Its that moment when you feel your not alone in the room or when you are afraid to enter the basement alone. Some have entered this world and been touched by it. Some of those have come back to tell the tale and some... have not. These are their stories. 15 short tales bear witness to new kinds of monsters and a different kind of terror. Shadow Tales is now in its second edition with all new edits, a brand new wrap around story and bonus material--authors notes on the stories. Visit the author at shadowtales.com
