

The Fog of Dreams (2nd Edition) (Operation Harvest Book 1)

Sinister experiments blur the line between man and beast. William Strickland clings to the scattered remnants of his past, searching for a missing family he's not even sure is alive. As the experiments take hold, twisting him into some creature he doesn't recognize, the complex web of conspiracy unravels, revealing a world he's not sure he wants to remember. Desperate to find his family, Strickland must use his newfound powers to fight back, even if it means losing touch with his humanity... FIVE STAR REVIEWS If you are looking for action, this book has it. A lot of it Well written, captivating story that I couldn't put down!! What a fantastic book!
