

## The Hunter and the Trap: Two Stories of Speculative Fiction

Two tales of speculative fiction from bestselling author Howard Fast. *The Hunter* and *The Trap* presents two thrilling and suspenseful stories by Howard Fast, one of the most prolific authors of the twentieth century. In *The Hunter*, celebrated but down-on-his-luck novelist Andrew Bell returns to New York from an African safari only to find himself the prey in someone else's big game hunt. Bell must seek the help of an old friend in order to escape with his life. In *The Trap*, an ex-soldier is tasked with traveling the world to find children for a daring social and scientific experiment. In a secret compound in California, a group of government-funded US scientists are attempting to win the Cold War by developing a race of super-humans. Isolated from the shortcomings of human society and nurtured to their full potential, these brilliant children begin to develop powers, including telekinesis and telepathy, which represent the next leap in human development. These two engrossing stories are at once horrifying, thrilling, tragic, and uplifting, demonstrating Fast's range and versatility. This ebook features an illustrated biography of Howard Fast including rare photos from the author's estate.
