

The Killing Moon

Archaeologist Jesse Holmes was confused since he normally felt publicity was a good thing for his endeavors... but not this. His latest translation of an ancient Iroquois legend is gaining recognition in the worst way; a serial killer is using the gruesome legend as a template wherein victims are tortured, flayed, and left to die at the time of the full moon- mimicking the supernatural tale of the Iroquois myth. With each succeeding month and murder the cops believe they have caught the guilty parties, but still the murders continue. As the killings mount, the public is left to fear whether the killer is a sadistic human/cult or the incarnation of a dark and ancient spirit. Alice Donahue, Chief of Police in her upstate New York town, is knee deep in the case. Working with both the FBI and the archaeologist behind the discovery, she is on the move to stay one step ahead of the next killing. For his part the real killer has no fear of capture, confident no one can perceive the least knowledge of his identity or where he might strike next. Certain that his appetite for fear will continue to be met, he waits for the next full moon to once again unleash his evil. A suspenseful thriller with a shocking conclusion, *The Killing Moon* will be sure to delight murder mystery aficionados and lovers of the occult.
