

## The Meandering Mayhem of Thogron Throatbiter (a short story)

Say farewell to your siblings, Oberoid scum! roared Thogron Throatbiter as he leapt from his rocky perch. Somewhere in the background he heard the stage manager inhale sharply... Imagine unstoppable barbarian armies that discover spaceflight. After they have conquered every inhabited planet in their system, what then? They take their pantheon of violence, pillage, and destruction to the stars, of course. But one day, their meandering mayhem must reach its inevitable conclusion. Take the foreign policy approach of Conan the Barbarian, mix with the insanity of Warhammer 40k, and add a dash of Brian Blessed on one of his louder days; now you have an idea of what lies in store for you in the Meandering Mayhem of Thogron Throatbiter. This Greyhart Press eBook is a short story, a perfect length to enjoy on your lunch break, or to complement a drink in your favorite coffee house.
